2421 - **CAREER AND TECHNICAL EDUCATION PROGRAM**

The Board of Education recognizes that not all students wish to stay involved in formal education beyond high school and must, therefore, be prepared to enter the labor force as productive workers.

For purposes of this policy, "career and technical education" shall be defined as a program designed to provide educational experiences and guidance for students to plan and prepare for a future:

- A. in the labor market as employable individuals immediately after graduation with productive, saleable skills;
- B. in education beyond high school with the opportunity to gain a marketable job skill(s) that will assist them in achieving career goals.

The Board shall provide a career and technical education program which may include:

- A. Industrial-Technical Education;
- B. Agricultural Education;
- C. Family and Consumer Education;
- D. Business Education.

The Board directs that any efforts to recruit students to participate in a particular career and technical education program must include literature and comparable recruitment efforts for students with disabilities in a format and context in which they can communicate.

The programs are available to students without regard to race, color, religion, national origin, ancestry, creed, pregnancy, marital status, parental status, sexual orientation, sex (including transgender status, change of sex or gender identity), or physical, mental, emotional, or learning disability ("Protected Classes"). The District Administrator is to ensure that application forms for work-study programs contain a notice of nondiscrimination and that each employer associated with a work-study program has provided assurance of nondiscrimination based on the Protected Classes prior to the time the students are selected and/or assigned.
