

Concussion

Concussion can be a serious injury for students. If a concussion is suspected the student will be removed from physical education classes, recreation time, and school sponsored sports. The parents/guardians should bring the student to their health care provider for further assessment, per School Policy 5340 "Student Illness/Accident/Concussion" and WI State Law 111.293. Additionally, if the student is diagnosed with a concussion, written clearance to return the student to activity will be requested from the health care provider. High school athletes who are under the care of the athletic trainer will generally be managed by the athletic trainer. Non-athletes should work with District Nurse to ensure appropriate accommodations and documentation are provided.
